Imagination Network

Imagination Network of Wisconsin is where inventors and entrepreneurs can connect with and learn from peers plus other resources in a fun and supportive environment. It's open to everyone! You never know who you will meet each month that can help you succeed, or perhaps you can help someone else find success!

Imagination Network meets every 2nd Tuesday

Imagination Network meetings are FREE.

Connect with us on

Imagination Network is hosted in partnership by: Fond du Lac County Economic Development Corporation & Center for Enterprise Development; Moraine Park Technical College; Ripon College's Creative Enterprise Consultants; ADVOCAP; Horicon Bank; and other inventors and entrepreneurs on the Imagination Network Advisory Council.

March 10th Topic: Making \$ on the Internet: E-commerce Revisited

Do you purchase products online? Do you sell products online? E-commerce touches our lives everyday. It's big business.

In November 2013, Imagination Network attendees learned the basics of e-commerce. Now, on **March 10th**, learn from local entrepreneurs who are immersed in e-commerce and making money or helping others make money on the Internet. Come hear their stories of how they got started, lessons learned, and their advice. Bring questions and share your experiences with online shopping as an e-commerce seller or buyer.

Entrepreneurs:

Alex Masri, CEO of JGear 1, Inc

www.onlinebootstore.com

Onlinebootstore.com is one of the fastest growing online retailers specializing in selling work, western, uniform and safety footwear.

Kym Lewis, Artist at Squirrel Creek Creations, LLC

www.etsy.com/shop/SquirrelCrkCreations/about?ref=announce

Squirrel Creek Creations sells handmade leather masks, armor and accessories on Etsy, an online marketplace for creative entrepreneurs and artists to sell what they make or curate.

Alan Hathaway, Owner/President

BrownBoots Interactive

www.brownboots.com

BrownBoots Interactive is a local full-service marketing firm specializing in web design, SEO optimization, and web application development including e-commerce.
